

MONROE

Calculating Machine Company, Inc., Orange, N. J.

MODEL: LA-7 and LN

DATE: 11-9-56

SUBJECT: Color Coded Exterior Parts Catalog

This bulletin covers the change in color scheme for the LA-7 and LN models. These "Color Coded" machines have a Gray Morocco cover case and Tan Morocco supplementary plate, carriage shell and carriage end caps. The numeral keytops have a Light Gray body with Light Yellow numerals for columns 1, 2, 6, 7, and 8. Columns 3, 4, 5, 9, and 10 have Pearl Gray body with Black numerals. The division lever keytop and carriage decimal markers are Coral. Color revisions have also been made on various other exterior parts including the name plate, operating keytops, screws, etc.

All revised exterior parts are illustrated herein and colors are identified by a code symbol following the part name. A code reference table is provided on each illustrated page. **NOTE: IT IS NOT NECESSARY TO INCLUDE THESE SYMBOLS WITH PART NUMBERS WHEN REQUISITIONING PARTS.**

Cover case numbers are listed on page 2. LA7's that are equipped with Westinghouse motors use a different cover case than those equipped with other motors. The difference is in the location of the motor cord hole. A guide for identifying the cases is provided on page 2.

A price list of all the "Color Coded" parts illustrated herein is contained on page 6.

Part numbers of exterior parts of the "All Gray" LA-7 and LN models can be found in Calculator Service Bulletins L#503, L#504 and L#505.
